Referral Description

Established May 2020 in an effort to implement a sustainable home support program for discharged COVID-19 patients with or without oxygen. This is a free program and oximeters are provided to each patient who consents to the Telehomecare COVID follow-up program.

Inclusion

Patient has shown ongoing clinical improvement while in hospital

Discussed with William Osler on Call Respiriologist if Home O2 is required

Locating: (416) 747-3500

Patient consented to Telehomecare COVID-19 follow-up

COVID-19 positive (stable) patient being discharged home with or without oxygen

18 years of age or older

Exclusion

Patient does not live in Brampton, Etobicoke or the surrounding area
